Detailed Description

Detailed Description

... the other being that the delivered data must be recognizable and in proper form for use. These two portions are handled by protocols, or standard conventions for communication intelligently, the first... hybrid network includes approximately all the advantages of a packet based network while still making use of the older circuit-switched components already in place. Detailed Description

Detailed Description

... toward the mainstream of software design and development, various
software solutions require adaptation to make use of the benefits
of OOP.

OOP is a process of developing computer software using...application domain. They were first developed to free application programmers from

the chores involved in displaying menus, windows, dialog boxes, and other standard user interface elements for personal computers.

Frameworks also...has to write from scratch. However, because the framework is really a generic application that displays windows, supports copy and paste, and so on, the programmer can also relinquish

control to...in Figure 4 are rectangular boxes that each have either a

"SP" or a "M" displayed inside them. The "SP" boxes indicate that a particular benefit for that particular component may...accordance with a

preferred embodiment, a callback system is facilitated by a caller accessing a display from a computer and filling out information describing the parameters of a call. Information such...and/or use with

parameter data) that manage the use and/or the consequences of use of such content and which can enact the terms and conditions of agreements involving multiple...Ideally, a quantity and a price of each

of the items that is selected is displayed during use of the present invention. Also displayed is a total price of the items that are selected along with shipping information. During...with shopping basket used in a shop such as supermarket is proposed.

In this function, items on the online shopping are temporarily added to a purchase list and a process of...

...to take the items into the shopping basket (add to 151

the purchase list), a function to check the contents of the shopping basket (display the purchase list), a function to return the item in the shopping basket (change the purchase list) and a

function...it is necessary for the consumer to scroll the page to press

the button to display the button for the shopping basket in order to display the button. The same is...

...the item into the shopping basket after the confirmation.

The state in which the necessary function is not displayed without scrolling not only imposes a burden to the operation of scroll, and when the...

...In one embodiment of the present invention, the shopping basket main body is not always displayed.

Instead, an interface function to display the shopping basket contents on the screen is provided on the shopping basket window.

COMPARE...as discussed above. Each of the items includes a plurality of available features which are displayed in operation 6003,

preferably with the price of each feature, including cost for adding the

...that request the information. The users access the information using

client programs called "browsers" to display the multi-media information.

known as HyperText Markup Language (HTML). The World-Wide Web serversk...

currency. At least one of the prices that is generated may be stored and

subsequently displayed during a subsequent use of the virtual shopping environment by the user. The virtual shopping environment may

also be...in a network, since these factors provide measures of the number of users which may use the software at any give time.

In many cases, however, it may also be desirable...

...permitted by the license.

A network environment for computers permits several computers or terminals to use or have access to one or more programs.

Traditionally, an end user would have to...
